EDUCATION

2024-2028(Pursuing)
MES COLLEGE OF ENGINEERING
KTU UNIVERSITY
B.TECH CYBER SECURITY

TOOLS

- Wireshark
- Nmap
- Burp Suite
- Metasploit Framework
- Aircrack-ng
- Hydra
- John the Ripper
- Nikto
- tcpdump

OPERATING SYSTEMS

- Kali Linux
- Linux
- Windows 10/11
- Windows Server

CERTIFICATIONS

- Google Cybersecurity Professional Certificate Completed
- TryHackMe Top 9% Global Ranking

PROFESSIONAL SUMMARY

Cybersecurity Engineering student with a strong interest in Offensive Security, Penetration Testing, and Ethical Hacking. Completed the Google Cybersecurity Professional Certificate and actively developing hands-on skills through TryHackMe labs, where I rank in the Top 9% globally. Familiar with vulnerability assessment, network analysis, password auditing, and Linux-based security tools. Seeking a Cybersecurity Internship to gain practical penetration testing experience while contributing to security-focused projects.

PROJECTS

- **Cybersecurity Portfolio Website**
 - Designed and developed a responsive portfolio website using HTML, CSS, GitHub Pages, and a custom domain.
- **Home Cybersecurity Lab**
 - Built a penetration testing lab using Kali Linux and Windows virtual machines.
- **Wireshark Network Analysis**
 - Captured and analysed DNS, HTTP, TCP, and ICMP network traffic.
- **Network Scanning & Enumeration**
 - Performed host discovery and port scanning using Nmap.
 - Identified open ports and running network services.
 - Practised reconnaissance techniques in a controlled lab environment.
- **Metasploit Practice**
 - Performed exploitation and post-exploitation exercises in controlled lab environments.

ACHIEVEMENTS

Google Cybersecurity
Professional Certificate

Date: 23 February 2026

TryHackMe Pre-Security
Path Certificate

Date: 9 May 2026

CAREER OBJECTIVE

To begin my career as a Cybersecurity Intern and grow into an Ethical Hacker/Penetration Tester by continuously improving my technical and practical offensive security skills.
